Launch Plan — AI Document Chat (RAG)

One-page plan · v1 public launch · November 2026

Owner: Maya (Scrum Master)
Launch: Mon 16 Nov 2026
Status: Draft

OBJECTIVE

Ship v1 of AI Document Chat to early users and convert the waitlist into active usage. Success = 500 signups, 50 weekly active users, and a sub-2s median answer latency within 30 days of launch.

AUDIENCE

- Knowledge workers drowning in PDFs/contracts/reports
- Researchers & students reading long papers
- Small teams sharing document sets (legal, ops, finance)

KEY MESSAGE

"Chat with your documents in seconds. Upload a PDF, DOCX, TXT or Markdown file, ask a question, get a cited answer. No setup — runs in your browser."

CHANNELS

Owned
Waitlist email (2 sends), in-app banner, blog post, docs site.

Earned
Product Hunt, Hacker News, LinkedIn, X/Twitter, creator outreach.

Community
Reddit (r/productivity, r/ChatGPT), Discord/Slack groups, university clubs.

SUCCESS METRICS (30 DAYS POST-LAUNCH)

500	50	<2s	≥30
SIGNUPS	WEEKLY ACTIVE	MEDIAN LATENCY	NPS

Also track: error rate <1%, docs uploaded per user ≥2, day-7 retention ≥25%.

RISKS & MITIGATIONS

- LLM cost overrun — default to extractive fallback; rate-limit per session; monitor spend daily.
- Low retention — onboarding tour + sample docs; empty-state prompts.
- Support load — FAQ, in-app help, office hours in week 1.
- Privacy concerns — state "processed in memory, nothing persisted" prominently.

DEPENDENCIES

- Landing page copy & assets (Marketing)
- Domain + analytics (Eng / Ops)
- Product Hunt listing assets (Marketing)
- Support inbox & FAQ (Support)
